WEEKLY WORKFORCE SCHEDULING

Build the roster, skip the chaos.

Build fair weekly schedules fast with **availability**, **time off**, **roles**, hour limits, and staffing rules in one private, local-first app.

SMART SCHEDULER
For managers of shift-based teams

THE MANAGER MOVE

Generate a draft week, then refine.

Start with your people, rules, and coverage needs. Smart Scheduler creates a workable draft you can edit before you publish.

- **Employees & roles** — keep your team, skills, and limits organized.
- **Availability & time off** — respect real constraints before shifts are assigned.
- **Staffing targets** — set coverage needs by day, time frame, and role.
- **Weekly schedule view** — see hours, gaps, swaps, and daily coverage clearly.
- **Save & export** — keep backups and share schedules under your control.
- **Local-first privacy** — no account required for core use; data stays on device unless you export.
